I was under the care of one physician for six months and two months with another without securing relief or a cure. The physicians insisted on an operation claiming that would be the only thing that would help me. My wife being bitterly opposed to an operation I did not consent, but continued under their treatment for some time. When I was most discouraged believing that my end was near, I heard of Dr. Kilmer's Swamp-Root and at once began taking your medicine and noticed almost immediately that the medicine was having its effect. After taking seven bottles of your Swamp-Root I was entirely cured and have not had a sick spell for over a year.

Lose Submarine-Montenegrine Capture 1,800 Austrians at Sanjak.

London. - Greece has protest against the arrest of the consuls of the central powers and their allies at Saloniki, which it terms a violation of Greece's sovereign rights, says Reuter's Athens correspondent.

The arrest of the German, Austrian, Turkish and Bulgarian Consuls at Saloniki, on orders given by Gen. Sarrail, the French commander, were the outgrowth of a German aeroplane attack upon the city, which was considered an act of belligerency, according to a dispatch to the Even ing News.

British and French troops surrounded the consulates, arrested all the members of their staffs, and seized the archives, the dispatch states.

Score Injured, Many Railroad Coaches Destroyed and Much Damage Is Done in Monterey.

Laredo, Tex.-Fifteen persons were killed, a score injured, some probably fatally, many railroad carswere destroyed and other property damage effected in Monterey, Mexico, when box cars containing dynamite and hand grenades for the Carranza army exploded.

First news of the accident was brought to Laredo by passengers from Monterey. According to their stories several cars loaded with dynamite and hand grenades were placed in the middle of a train near cars occupied by the soldiers. The cause of the explosion had not been definitely assigned, but it was believed that the dynamite was jarred while the cars were being switched, the explosions of the hand grenades following immediately.

Twelve soldlers in the adjacent coaches were blown to attoms. The three other dead were children who succumbed to severe burns. The moth er of the children who was standing by, escaped death, but received serious burns.

The force of the explosion was s great that several buildings in the and the Mississippi River were also biles out there? there were few, if any, persons in jured when the buildings collapsed.

Not a Myth but an Actuality Shown in the Returns of Agricultural Statistics and **Every Department of** Trade and Commerce.

The trade revival in Manitoba Saskatchewan and Alberta is an actuality and not a myth. There is today a spirit of optimism in the air, just as two years ago there prevailed the opposite spirit of pessimism.

A general trade revival has been felt in every department of business in the Prairie Provinces. The agriculturists are in better shape than they have ever been before in their lives. No farmers of any country are in better financial condition and in a more general state of prosperity than are the farmers of Manitoba, Saskatchewan and Alberta. The farmers have harvested a record crop-a crop which enriches them to the extent of something over \$400,000,000.

in the cities the prosperity of the country has been reflected. Everywhere business is on the hustle. The wholesalers and the retailers and the implement dealers find business good. The banks and other collection houses find collections satisfactory, and financial men declare that westerners are paying up their debts. In Winnipeg the bank clearings have been the largest in history, exceeding some weeks the figures of Montreal and Toronto. The grain shipments have been the biggest in the history of Winnipeg and in the history of the twin ports, Fort William and Port Arthur. The mail order houses have had a big year, therush of fall orders exceeding all previous years and taxing the capacity of these establishments, whose most sanguine expectations have been exceeded by the actual business done

The tide has turned in western Canada. The people of the West are forging ahead, forging ahead in actual production and in creation of wealth, giving generously to charitable and other funds, paying up their back debts, while going along carefully as regards any creation of new debts. They are economizing but not scrimping, acting cautiously but not miserly, The financial heads of eastern Canada. of the United States and of Europe are no longer criticizing western Canada: rather they are unstintedly offering their praise and their compliments. The financial press recognizes that the tide has turned in western Canada. and it has been published to the world.

The condition of western Canada at the close of 1915 is one of optimistic prosperity, backed by the same determination of western people to go on increasing their productiveness and maintaining the records which they have already established.

The trade revival of western Canada. is the happiest feature in the busine survey of the whole Dominion for 1915and in the outlook for 1916 .- Advertisement.
